Councilman Cypher Proposes City Take Over Water System to Provide Adequate Protection Against Fire

PAYING OUT BIG SUM YEARLY WITH NO RETURN, SAYS

Dozen Engines on Scene of
Silgo Fire Would Have
Been Useless.

LOW PRESSURE BLAMED

Cities Court Decision in Case of Har-
mon Day Fire to Show That Owner
of Property Has No Recourse
Against Water Company or City.

Beyond presentation of a petition
for the location of a central
fire station on the east side of the
Youghiogheny River no action was
given the proposed station at the
meeting of Council Monday evening.

This document, bearing the name of
191 persons, most of them owners of
property, was submitted by J. E.
Cypher.

Another phase of the fire protection
situation was presented, however,
by Councilman Jesse A. Cypher who read
a report he had prepared dealing with
what he declared to be the inadequate
water pressure in the mains of the
Connellsville Water Company.

The destruction of the plant of the
Lockhart Iron & Steel Company, was
not occasioned by the failure of the
fire department to respond promptly,
he declared. "If we had been able to
place a dozen engines at the scene of
the fire immediately at its inception,
I believe the result would have been
the same," he said.

"The great trouble with the city,"
he continued, "is the inadequate wa-
ter pressure maintained in the mains
and in the fire plugs of the Connellsville
Water Company.

Explaining that the city is paying
the water company \$4,761 annually in
hydrant rental, he declared that "as
a matter of fact the city is getting
practically no return for this ex-
penditure."

Concluding his arraignment of the
superintendent of public safety said
he believed steps should be taken
forthwith to declare the franchise
forfeited and to compel the water
company to pay back to the city
monies received when no service was
actually rendered and to take proper
steps to obtain the water plant and
have it taken over by the city.

Councilman Cypher's statement in
April was:

"Since the destruction of the Silgo
mill by fire there has been considerable
discussion and agitation for the
erection and construction of a central
fire station on the East Side. I want
to distinctly understand that I am not
opposed to this move. However, there
are some things that I believe the tax-
payers of the city should know.

Thaw and Former Wife Face to Face Over Counsel Table

PHILADELPHIA, April 15.—Evelyn
Newitt and Harry Thaw faced each
other across the counsel table at the
latter's trial for his sanity today. Not
by so much as a movement of his did
the millionaire, who is seeking his re-
lease from "McKendree," acknowledge
presence of the woman who came to
oppose that release.

As for Evelyn she sat with down-
cast eyes, paying no attention to her
former husband but listening intently
while her counsel questioned an alibi
for her. She was dressed in a simple
black gown and her hair was pulled
back and killed Stanford White
for her sake.

Liberty Annoyed By Petty Thieves

DICKERSON RUN, April 15.—Three
homes were entered by burglars
last week at Liberty and efforts
to nab a store failed when a burglar
alarm betrayed the intruders. Charles
Kuntz lost \$65.25, and a watch.
Clothing was carried out on the porch.
Wilbur Stoner was relieved of \$3 the
same night. John Pratt of Vander-
bilt said his loss was not estimated.
The following night a fruitless
effort to get into the store of Henry
Hunker at Liberty was made, but the
burglar alarm "was on the job" and
the intruders fled.

State Rejects Bid For Dunbar Township

By United Press.
HARRISBURG, April 15.—The
State Highway Department today re-
jected a road bid for Dunbar town-
ship, Fayette county.

No Arrests Made.
There was no police call today,
an arrest being made over night.

DISCUSSION OF FIRE STATION IS HELD UP FOR TIME

Because of the pressure of other
business consideration of the pro-
posed East Side central fire station
was not taken up by Council Mon-
day night. A petition for the re-
location of the station bearing 191
names was ordered to be placed on
file for later action. Council will
meet again tonight to award con-
tracts for street paving and pos-
sibly for the garbage plant.
Whether the fire station will be
considered then was not known to-
day.

BIDS OPENED FOR TWO STREETS, TRUCK AND TWO RADIUSES

Council Also Gives Much Time
to Hearing Merits of
Garbage Plants.

LET CONTRACTS TONIGHT

Bids for improvement of Snyder
and Jefferson streets were opened by
Council Monday night but awarding
of the contract was held over until to-
night because of pressure of work and
the time required to tabulate the
figures. Council also authorized
preparation of ordinances for the im-
provement of Murphy avenue between
Pittsburg street and York avenue,
Highland avenue from Fayette street
northward to the Pennsylvania rail-
road and South Arch street from the
Yough Brewery to the city line at Gil-
son avenue.

I. Alfred DePole was low bidder for
Snyder and Jefferson streets. His pro-
posal for Snyder street totaled
\$16,083.55 to \$16,083.25, the difference
being due to variations in the speci-
fications. For Jefferson street his bid
was \$14,794.41 and \$14,330.80.

M. Duggan was low bidder for a
radius at Apple and Arch streets at
the Postoffice, his figure being \$789.55
for the work alone. The bid of an
other concern for the granite was
\$417. The cost of the contract for the
radius was considered uncertainly whether
the bid would be accepted. Use of
granite chips makes the cost of con-
crete work higher.

The Blumhouse Paving & Resur-
facing Company was low bidder for a
radius at Robbins and Superior streets,
the proposal being \$500.75. Sewer
drains and a manhole are required
here, which boosts the cost.

Council gave considerable time to
consideration of the relative merits
of garbage incinerators of the Uni-
versal Destructor Company of Pittsburg
and the Morse-Bouguer Company of
the same place. The bid of the for-
mer was \$21,500 for a 10-ton plant
and the latter \$14,000 for a 15-ton
plant, with \$5,570 for an extra unit.
The Universal uses no coal, the other
does. Owing to the fact that Coun-
cilman James Wardlaw, head of the
Department of Public Safety, disposes
of garbage had to leave the meeting
and was held over.

Bids also were received for a street
truck. The bidders were T. F.
Means Garage, \$4,765.47, less a dis-
count of \$76.58; Crawford Motor
Company, \$4,900; Worthington Motor
Company, \$4,775.50; American La
France Fire Engine Company, \$5,
227.00. The contract was not
awarded.

FIRE PRESSURE IN HIGH PARTS CITY HELD IMPOSSIBLE

Superintendent Admits Mains
Would Not Stand the
Strain Required.

PUMPER IS AUTHORIZED

This Step Deemed Expedient After
Solvers Learn That There Is No
Hope Pumps Will Lift Sufficient
Quantity of Water in Plume.

Discussion of the alleged inade-
quate water pressure for fire fighting
purposes in Connellsville during the
meeting of Council Monday night de-
veloped that the Connellsville Water
Company does not consider it pos-
sible to produce sufficient pressure in
the higher parts of the city to make
possible protection against fire.

Asked if the water company could
furnish water for fire protection to
all parts of the city, Superintendent
C. A. Coughenour replied in the
negative. "We can furnish water but
not fire pressure," he said.

Further discussion along this line
developed that while the agreement
with the city exacts a water hydrant
rental the company is not required to
provide pressure for fire fighting in
all parts of the city. Superintendent
Coughenour said he did not think any
water company anywhere operation
was asked if it were not true that high-
er pressure on the mains, believed
by many to be weakened by long ser-
vice and the action of sulphuric acid,
would not stand it, Mr. Coughenour
replied in the affirmative. Just before
he had explained that the com-
pany has reserve pumping service for
emergency use in case of a break-
down but does not use both during a
fire, saying that "if we did the pres-
sure would tear up the whole system."

He said mains were intended
to stand only so much pressure at
any time. His answer also was a
reply to a question as to what he
said and done in the last five
years to provide a greater supply of
water. One set of pumps is not ex-
tended to the limit, he said, even dur-
ing a fire. He said to provide fire
it was necessary to pump water from
200 to 300 pounds pressure would be
required in the low places.

Tests made by Superintendent J. A.
Cypher of the Department of Public
Safety, Fire Chief DeBolt and Mr.
Coughenour showed that the day after
the Silgo fire the pressure at Silgo
was 120 pounds; at Pittsburg street
and McDermott avenue, 120; at Craw-
ford and Pittsburg, 120; at Sixth and
Meason, 120; at Willow road, 38; at
Pittsburg and Green, 98; at Crawford
and Eleventh, 50.

While he did not produce records,
Councilman Cypher expressed the
conviction that the pressure is not
what it was years ago. Time was he
said when it was impossible for one
man to hold a nozzle. "Now," he said,
"I can go out anywhere and pick up
a hose and hold it." On the other
hand, Superintendent Coughenour
said the reason for the pumping more
water than it ever did.

Water pressure at the Silgo the day
of the fire was so low, Chief W. E.
DeBolt said, that it was impossible to
play a stream 25 feet high. Asked
the reason for the low pressure
Superintendent Coughenour ex-
pressed the belief that too much hose
was being used on a four-inch main
and that possibly there were some
kinks in the hose. Chief DeBolt said
the hoses had no sections of hose in
use.

Half the water pumped is wasted,
the records of the water company
show, according to the superintendent.
This is due to leaky fixtures,
largely. During cold weather it is
occasioned by allowing pilots to re-
main open to prevent freezing.

Motered water will solve the waste
problem, Mr. Coughenour said. It
will be the only way to cut down
waste to a minimum.

Summing up, Councilman Cypher
declared the immediate necessity is
a pumping engine. He urged action
toward its purchase. Before the
meeting was over Council authorized
the purchasing agent to contract with
the American LaFrance Fire Engine
Company for a pumper, the cost of
which will be \$12,500. Four months
will be required for delivery. Council
was told.

tirety, provided other parties con-
cerned adopt a similar course, Stan-
don said.

DEPT. COMMANDER COLLINS IS CHIEF SPEAKER MAY 25

When Memorial Service of the
American Legion Will
Be Held.

L. Bishop Post No. 301, The Ameri-
can Legion, to be held in the High
School Auditorium on Sunday evening,
May 25, Connellsville Post No. 301,
county will be honored by the first
visit of a department commander to
participate in a ceremonial function.

from Department Commander J. L.
Collins of Pittsburgh formal acceptance
of an invitation to serve as the prin-
cipal speaker upon this occasion. Com-
mander Collins is an exceptionally
able speaker. His address will be
both interesting and inspiring.

The details of the program, which
will include music and other features,
will be worked out by a special com-
mittee to be appointed at the meeting
of the Post to be held on Thursday
evening.

Hoping to make this service a com-
munity tribute to the soldier dead, of
the committee of the Legion will meet
with the Ministerial Association with
a view to securing the cooperation of
the member churches to the extent
of omitting their evening services on
that date and urging attendance at the
memorial service instead.

veteran organizations, to the Kiwanis,
Rotary and other clubs to attend in a
body in order to make the service
truly representative of the settlement
of the people of the city. Members of
the Grand Army will be transported in
automobiles to the site of the High
School and given a place of honor in
the audience.

The Legion posts of the county will
also be invited to be present. As a

memorial services in the afternoon it
is thought that they will have a very
effective representation at the exer-
cises here.

The numbers of Bishop Post are
quite anxious to make the services
this year even more impressive than
any preceding and are hopeful that
the attention given will be such as
will reflect credit upon the community
as a whole.

the season.

Derailed Freight Car Wrecks Coal Tipple at Eureka, Ties Up B. & O.

The Eureka tipple of the Pittsburgh
Coal Company, about one-half mile
east of Smithton, was wrecked this
morning when a freight car on the
Baltimore & Ohio railroad jumped
the track and caused the collapse of
the big wooden overhead structure.
The derailment was reported unoffi-
cially. As the accident occurred on
the Pittsburgh Division of the railroad
no authentic information on it could
be secured at the offices here.

The tipple is used to coal engines
of the railroad company and it ex-
tends out over both east and west
bound tracks. The mine is right along
the river.

Traffic in both directions was held
up for several hours. The accident
occurred about 6:30 o'clock this
morning and the trucks were still
blocked this afternoon. Passengers
were being transferred around the
blockade. No one was hurt, it was
said.

MRS. S. D. WOODS HONORED

AT FAMILY TURKEY DINNER

Mrs. S. D. Woods of East Fairview avenue, was honor guest at a beautifully appointed family dinner given last night by her son, Dr. John Y. Woods at his North Pittsburg street home in observance of the seventy-fifth anniversary of her birth. The affair was cleverly planned and was one of the greatest surprises ever given the honored guest. Earlier in the evening her son, Dr. John Y. Woods, invited her to accompany him on an automobile ride. On their return the guests had assembled for the occasion. The dinner appointments were in keeping with Easter and the menu consisted of turkey and all the trimmings. In the center of the table was a large white birthday cake bearing seventy-five pink candles. Surmounted by American beauty roses. Following the dinner the remainder of the evening was spent in a very delightful social manner, a radio program and music by a talking machine being enjoyed. Mrs. Woods is the wife of Dr. S. D. Woods and both are among the oldest and best known residents of Connelville.

Two Fires Cause

\$800,000 Loss in

Pittsburg Downtown

PITTSBURGH, April 15.—Two fires in the business section of Pittsburg today caused damage estimated at \$800,000. Several frames were hurt and two buildings were destroyed in a blaze which for a time threatened to wipe out the entire block from Seventh avenue to Grant, to Cherry street. Four alarms were turned in and firemen fought the blaze four hours before it was under control, with a \$300,000 loss.

While the Seventh avenue fire was

being fought, a policeman discovered flames roaring through buildings at Third avenue and Perry street. Three alarms were sounded, calling out nearly all apartments in the city.

One fireman was injured in the

Third avenue blaze and the loss was estimated at \$500,000.

"Pepita" Best of

Any Operetta Ever

Given by School

"Pepita," the operetta to be given by the students of the Connelville High School on Friday and Saturday, April 25 and 26, is by far the largest one of the kind ever attempted. Such success has met the others that the instructors, who coach the playlets, have broadened them and this year the tuneful entertainment will exceed any ever given before.

The tickets will be sold by the stu-

dents and reservations will be made next week. Many of the costumes worn in the operetta have been made by the students. The affair is being rehearsed under the direction of Carl T. Austine and other members of the faculty.

"Marcheta" Is Musical

Play That's Different

After seeing a few rehearsals of Marcheta, the Legion men are loud in their praise of the year's production. Never before has local talent attempted such intricate dances or tried to keep their feet in time to such fast moving music. The three greatest dancing countries of the world are represented in this show, being brought in in a most novel way. First will be the "Origin of Jazz," representing America. This will be executed by eight young ladies dressed in costumes of grey and black satin, designed and made so as to fit the dance in name and beauty.

by Taking Lydia E. Pinkham's Vegetable Compound

Mannington, West Virginia.—"I took

the Vegetable Compound when having the turn of life. I have been sick for seven years. I would get a little better, then I broke down again. It would be hard for me to describe how I was, for I was a perfect wreck. I suffered with a pain in my left side, then I would have numb spells and I would think I couldn't live. I would have not been able to work. I would think I couldn't ever get a meal ready. My work was a burden to me. I was not able to do my housework half of the time. A friend advised me to take Lydia E. Pinkham's Vegetable Compound and it has given me strength and health. The hot flashes left me and I got better of the numb spells. That summer I did my housework and worked in the garden a good bit. I tell all sick women what your wonderful medicine did for me, and will always recommend it. I was born in Marion County and still live in it. I am known to all my neighbors, and you can publish this statement because it is true."

Rheumatic Pain Goes Quickly When New Powder from Italy Is Put in Shoes

No Medicine to Take. Quick Relief Guaranteed
By Local Druggists.

The internal methods of treating
rheumatism, uncertain at best, have
been shown hopelessly old-fashioned by
a recent scientific discovery. This
amazing new discovery has quickly
relieved thousands of chronic sufferers
of their crippling, agonizing pain.
Alessandro Volta, the eminent Italian
physicist for whom the electric volt
was named, discovered a scientific com-
bination of certain ingredients which
he has compounded into a powder
called Volta.

This powder is shaken in the shoes,
where it soon immediately to be ab-
sorbed into the blood through the
sweat pores of the feet. This absorp-
tion is due, no doubt, to the fact that
the feet contain more than 10 times as
many pores to the square inch as are
found in any other part of the body.

The use of Volta powder has demon-
strated such astonishing results in
literally thousands of cases, many of
which were chronic and incurable, that
the American distributors have autho-
rized local druggists to dispense Volta
to rheumatic sufferers in their city with
an unqualified guarantee to return the
full purchase price on the first box in
any rare case where the rheumatic
pains are not wonderfully relieved.

All who suffer from rheumatic pains,
no matter how long-standing their case
may be, should take immediate advan-
tage of this liberal offer. You can get
Volta powder with this guarantee from
Connellsville Drug Co., C. Roy Hartz,

"Dear Sir:—This is what I think of your krumbled bran. I would not be without it for anything in the world for three years. I used all kinds of medicine for constipation, and only got temporary relief. I was advised by a doctor to use Kellogg's Bran, and since I began using it I feel better now than I have for three years."

(The original of this letter is on file at the Kellogg Company, Battle Creek, Mich.)

Kellogg's Bran brings results because it is ALL bran. You can't fight constipation with halfway measures—with bran which are only part bran. It takes ALL bran to be 100 percent effective.

Became Kellogg's Bran is ALL bran it sweeps, cleans and purifies the intestine. It acts naturally—just as nature acts. It stimulates the intestine and makes it function regularly. It is guaranteed to bring results, or your grocer will refund your money.

Kellogg's Bran has a delicious nut-like flavor. Quite different from ordinary, unpalatable bran. You will like it as a cereal, sprinkled on other cereals, cooked with hot cereals, or in the recipe given on every package.

Get two tablespoonsful of Kellogg's Bran every day—in chronic cases, with every meal. Made in Battle Creek. Sold by all grocers.

amount of dust formed, and the use only of closed lights and penitentiary explosives to be set off only by electric shot firing methods, according to the Bureau of Mines, Department of the Interior. These requirements, it is said, follow an intensive study of safety precautions made by the industrial commission after the mine disaster at Castle Gate, Utah, on March 8, in which 171 men lost their lives.

Utah is the only state, according to officials of the Bureau of Mines, which has as yet required all these safety precautions, and it takes the lead, as a result, among all coal mining states in regulations for mine safety. Rock dusting has been strongly recommended by the Bureau of Mines but except for a few mines watering or humidifying has been relied upon in the coal mines of this country. The numerous coal dust explosions of the past few years, some of which have occurred in what were considered well-watered mines, have caused mining men to be suspicious of the efficiency of watering. Bureau of Mines officials state that watering as a general method is a failure and urgently recommend rock dusting.

The Paramount

"A CHAPTER IN HER LIFE"—On view today at the Paramount is one of the best attractions shown at the Paramount in months. Claude Gillingwater and June Mercer appear in the leading roles.

"Very rich, but very unhappy," was the general description of Mr. Everingham by his neighbors. Visiting him at the time our story opens were his eldest son's widow and her grown-up daughter. A faithful, although auto-crate old housekeeper, completed the ménage. Neither Everingham nor the housekeeper made an attempt to conceal their dislike for the visitors. This was the condition of affairs when Jewel, daughter of Everingham's youngest son, came into the household. Everyone resented her intrusion, but Jewel had been taught by her mother that being afraid of anything or anyone was a disgrace. Accordingly the child just goes on loving everyone and being pleasant. The ray of sunshine gradually dispels the gloom of the household and turns the millionaire into an adoring grandfather, brings his other grand-daughter happiness and love and reunites father and son. It is a story that appeals to all because of its naturalness and true-to-life interpretation.

Wednesday and Thursday, "Rich Man's Wives" will be shown.

The Soisson

"THE DAY OF FAITH"—The leading picture today and tomorrow at the Soisson, is a Goldwyn picture featuring an all-star cast. Eleanor Boardman, Ford Sterling, Ray Griffith, Tyrone Power and Wallace MacDonald appear in the stellar roles.

Jane Maynard, believing that the burglar whom she holds responsible for her old father's death, was shielded from proper punishment by the idealist, Blind Hendricks, who promulgated the doctrine, "My neighbor is perfect," throws herself so unreservedly into an attack on his standing in the community, that he is tarred and feathered, dying from his injuries. In her remorse and horror, the girl embraces the doctrine of perfection which Hendricks had been preaching and through her exposure of that cause, is drawn into an intensely dramatic and highly emotional and spiritually significant story, which includes Michael Anstett, the richest man in the world, John Anstett, his son, who falls in love with Jane, and Tom Barnett, a reporter, whom Anstett engages to hold Jane up to public ridicule, but who is converted to her way of thinking and then falls in love with her. The story ran serially in Collier's Weekly and was then published in book form; it aroused a great stir in the literary world and judging from the screen production shown last night, it will make an equally big stir among motion picture fans.

Thursday, Friday and Saturday, "The Tie That Binds" will be shown.

The Orpheum

"THE ETERNAL CITY"—One of the dramatic gems of the year, featuring five great stars, Lionel Barrymore, Montague Love, Bert Lytell, Barbara La Marr and Richard Bennett, is on view today and tomorrow at the Orpheum.

A love that was born in a little village and culminated, after many vicissitudes, in the aristocratic halls of Rome, amid luxury and splendor, is vividly told in "The Eternal City."

Miss La Marr and Mr. Lytell play the parts of Donna Anna and David Rossi, sweethearts in a village in rural Italy. The war separates them, and when David returns he discovers that his fiancée apparently is in the toils of Baron Bonelli, the most powerful and unscrupulous man in all Rome.

He does not know that Donna had believed him dead, and that her relations with the baron did not justify the ugly rumors which permeated high social circles. Determined upon revenge, he set about the task of bringing the baron to justice, and succeeds only after a series of thrilling adventures.

It is based on the famous novel by Sir Galois.

Thursday, Friday and Saturday, "The Bad Man" will be presented.

IS THIS YOUR EXPERIENCE?

Many Connellsville People Are Afflicted With Annoying Itis.

Are you bothered with too frequent action of the kidneys? Are the secretions highly colored—do they contain sediment—burn and scald in voiding? These are all signs of kidney sickness and should not be neglected. Connellsville people recommend Doan's Pills. If your back aches and your kidneys are weak you will find no better recommended remedy.

Jas. L. Grady, mailorder, 615 Highland St., Connellsville, Pa., says: "When I was nineteen years old I was taken with a bad attack of kidney complaint. My back became lame and weak and I couldn't work at all. I grew thin and haggard looking. I was nervous and a slightest noise upset me. My kidneys were in terrible condition and the secretions were irregular in passage. A friend advised Doan's Pills and I used one box, which gave wonderful help. My back became strong and I gained in weight gradually, and every symptom disappeared. I was cured and have had no trouble since."

Seldom Falls to Give Absolute Relief From All Piles and Suffering. Guaranteed by Union Drug Co. and All Good Druggists.

Many sufferers from Piles or Hemorrhoids have become despondent because they have been led to believe that their case was hopeless and that there was nothing in the world to help them.

To these people we say, "Go to your druggist and get an original box of Moava Suppositories." One of these inserted into the rectum according to directions will be found to give immediate relief. They reach the source of the trouble and by their soothing, healing, antiseptic action first allay the pain and soreness and then by direct contact with the ulcers and piles cause them to heal up and disappear forever.

It's simply wonderful how speedily they act. Blessed relief often comes in two days. Even in cases that have steadily resisted all known treatments, marvelous results have been obtained. Moava is one of the wonderful discoveries of recent years and any sufferer from Piles or Hemorrhoids who is disappointed with his use can have their money refunded. —Advertisement.

COUNCILMAN PROPOSES CITY WATER SUPPLY

Continued from Page One.

"The destruction of the Silgo mill was not occasioned by the failure of the fire department to respond promptly. If we had been able to place a dozen hydrants at the scene of the fire, immediately at its inception, I believe the result would have been the same.

"The great trouble with this city is the inadequate water pressure maintained in the mains and in the fire plugs by the Connelleville Water Company. I have before me a copy of the agreement entered into between the Borough of Connelleville and W. S. Kuhn, dated April 20, 1883, which is the agreement or ordinance under which the water company enjoys its franchise and collects its revenues.

"Under and by virtue of the terms of that ordinance, the water company agreed to furnish and erect on the line of its water pipes in said borough, and maintain in good repair, fifty (50) fire hydrants of the kind known as double delivery, to have a capacity of water discharge of the regulation size of two and one-half (2 1/2) inches, and sufficient pressure for fire protection. This number was to be increased from time to time as the demands of the city required it.

"For this service, the city now and for some time has been paying the water company the sum of \$4,761.

"As a matter of fact, the city has been getting practically no return for this expenditure. For some time past the water pressure has been bad, and the city is compelled to pay for the protection under terms of the agreement. It receives practically nothing in return and in case of fire the city as well as the taxpayer is helpless.

"Here it might be mentioned that on March 24, 1920, the home of Harmon Hay on the West Side hill was destroyed by fire. The fire department responded promptly, was there in plenty of time, but had to stand by and watch the Hay home burn to the ground, by reason of the inadequate pressure or supply of water.

"Subsequently, Mr. Hay entered suit in the court of common pleas of Fayette county to recover for the loss he had sustained. Two actions were filed by Attorneys John Duggan, Jr., and E. C. Higbee by Mr. Hay. One action was in the name of Harmon Hay, against the water company in trespass, and the other was the city of Connelleville for the use of Harmon Hay, a taxpayer against the water company, in assumpsit.

"The court there held that a resident and taxpayer of a third-class city has no privity in a contract between the city and a water company, under which water is furnished to the city, as will enable him to sustain an action of trespass against the water company for a loss by fire, upon the ground of the failure of the water company to supply sufficient water to extinguish the fire.

"That an action in assumpsit brought in the name of the city for the use of the taxpayer could not be sustained against the water company under the same facts. That the injured party has no remedy against either the water company or the city for the damages he may sustain by reason of a fire, unless by statutory provision.

"There is no statute of Pennsylvania providing liability against water companies or municipalities for damages caused by fire.

"Under the decision of the court, in this State and other states, a citizen may pay his taxes to insure adequate supply of water, in case of fire, a water company may contract to provide adequate water supply and adequate pressure, and after payment of this service it falls to live up to the contract or agreement, both the city and the taxpayer are helpless.

"This has been sustained not only in the Hay case herein mentioned but in the case of Thompson vs. Springfield Water Company, 215 Pa. 275; Carr vs. The Northern Liberties, 25 Pa. 324; Grant vs. City of Erie, 69 Pa. 420; Stone vs. Uniontown Water Company 4 Pa. Dist. R. 481; Devo vs. Kittingham Water Company, 8 Sutter 227.

"Under all of the facts, it seems to me that the need of the city at present is not so much a central fire station, an enforcement and observance by the water company of the agreement under which they are operating in the city.

"I believe that steps should be taken forthwith to declare the franchise forfeited to compel the water company to pay back to the city the monies received when no service was actually rendered and to take proper steps to obtain over by the city.

"I would like to have these statements spread at length upon the records of the minutes of the meeting of Council, and have prepared herewith copies for each of the local papers."

Liberal Reductions

On All Story & Clark Pianos

We are offering liberal reductions on all Story & Clark Pianos until the 14th of May. This is not a regular piano sale—none but Story & Clark Pianos being reduced—but a sale for the purpose of introducing these famous pianos in this vicinity. Whether you intend to buy or not—we want you to come in and see the high grade pianos.

The W. F. Frederick Piano Company has purchased the entire stock of the Story & Clark Company's Pittsburg store and in the future the Great Frederick Stores will have the exclusive agency for their nationally advertised pianos in Western Pennsylvania. No matter what kind of a piano you prefer—upright, player or grand—you'll find it here.

Story & Clark Upright Pianos, Player Pianos and Grand Pianos at Reduced Prices!

For the Entire Family

Buy a piano for your home today. You'll never regret it! Nothing you can buy will be able to take its place. Regardless of what kind you buy—or where you buy it—it will be a profitable investment. Of course we want to show you ours before you purchase—you'll be making a mistake if you don't see them. Pianos, Player Pianos and Grands in all finishes.

Music's Place in the Home

You may own an automobile, or a radio, or perhaps a talking machine, but—your home is not complete unless you own a piano. There is nothing else that can soothe your tired, ragged nerves; after a hard day's work; there is nothing more inspiring than a beautiful, old-fashioned melody played on a piano; and there's nothing that will keep the family at home as easily.

These Reductions Are for 30 Days Only

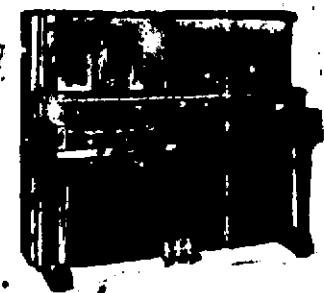

THE REASON—

We are forced to conduct a sale at this time in order to reduce our stock to normal. We had our regular Spring stock on the floor when the Story & Clark Company was bought out. These high grade pianos were distributed among our various stores. Our warehouse is overflowing so we must dispose of some of them. Take advantage of these liberal reductions and buy now.

From behind them rose the dust-laden city of a wolf, a signal of discovery. The cry quivered and abruptly ceased as a wounded warrior reached the maximum of effort.

"That tells the others the whole story. We must be out of this before daylight—and no turning back. Hi, girl, how many were there of them?" The girl moaned hysterically and snatched the speaker's wrist more tightly. Dinsdale reached back and touched her ear, and commanded, "Stop that noise. How many jumped you?"

"Three fired from the sky. They killed I don't know how many. They killed the Stacey brothers. Young Dawley fired back. They dropped from the sky and used clubs. Oh! Oh! Oh! With clubs!" Young Dawley's dozen like pictures of death. Out of the black sky almost into our face. "Call it thirteen," said Dinsdale to his companion.

"I've seen one of it already. Six or seven left. Not enough for breakfast! Load up and let going. Pete married the gambler!"

"A moment, I'm loaded. Stop your horse, girl, or they'll have you again!" On a steep hillside, a group of men were gathered. The ground was strewn with boxes and boxes and the horses had been butchered. But what constituted a more horrible sight was the mutilated bodies lying in the road of light.

The girl had named four dead men and one woman. Life rescuers counted nine start figures which meant the Belman outfit had been wiped out with the exception of one—the girl. "Watch sharp!" yelled San Juan, falling into the lead with the rifle in his teeth and his derringers ready. There was no sign of the enemy on the canyon floor and the riders devoted their attention to the walls of broken rock, now faintly illuminated by the fire. Thirty feet up and on the right hand side something moved and dislodged pebbles.

Instantly Dinsdale threw up a gun and boy on this. With the third bullet a savage rolled down the canyon slope and sprawled grotesquely across a boulder. He wore three feathers of the golden or war, eagle in his long black hair. The red paint along the median line of the hair was conspicuous.

The count coup Dinsdale bent low to the side and the girl screamed for him not to drag her from the horse. He snatched away the feathers, only to drop them as several bullets whistled about his head.

San Juan was firing at the left-hand wall. His rifle followed an answer, filling the canyon with crashing echoes. A dead warrior, his head smashed by a heavy, dorringer bullet hung over a rock. His hands hanging down as if he were trying to reach the side just below him. Then in a few mighty swings the frightened horses turned a head in the road and leaped into the dark forest. Dinsdale felt the girl's arm relaxing. Repeating his belt gun, he reached around and caught her just as she began to topple into the road. He pulled her around in front of him and placed a hand over her heart. She still lived.

After a mile of reckless traveling the men drew rein and listened. There was no sound of pursuit. Then the gambler said:

"It's over here. Can you hear it? Running water on the left. The spring where the Metz family was wiped out. Five men and two women."

"The girl gave a little shiver and began to weep."

"She's come to her senses. Dinsdale called out: 'Get some water and perhaps she'll feel better. Are you hurt girl? And what's your name?'"

"I'm hurt! With I was dead. I'm Little Cal," she moaned. "They dropped down out of the sky and began shooting. The Stacey boys were mending a broken wheel by the fire."

"Any of your folks with them?" gently asked Dinsdale.

"None of my folk. I ain't got any. But they was good to me. Only friends I had. Then they dropped out of the sky like big black birds. They fell about into our fire. The Stacey and the Belmans was killed in a jiffy."

"Can you ride behind me now?" asked Dinsdale.

Here in front. I'm afraid of the dark when I ride behind you. I'll tell them following at us.

In this fashion they came to the upper end of the canyon and into the dawn.

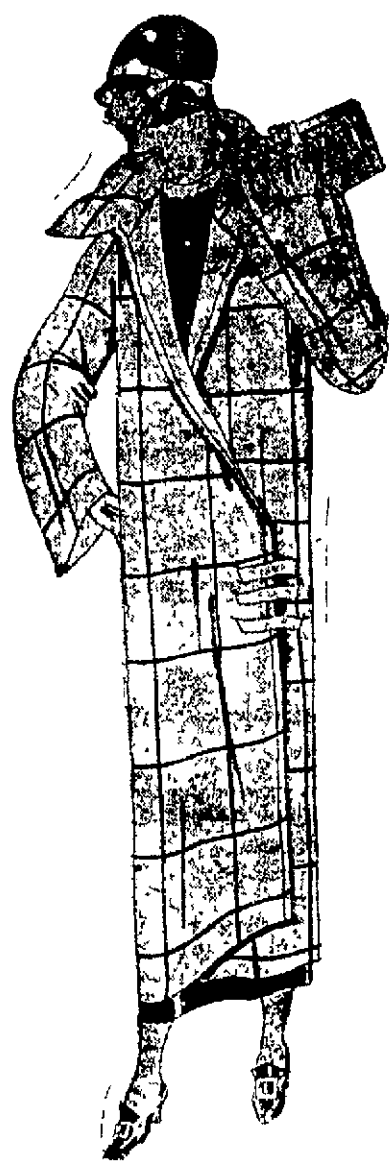

Dark stirred suddenly in the one survivor of the massacre. He was a slight of physique, tall of stature, with a dark, thin body, light eyes, a pale, cold, unimpassioned, and he was so young and manly. He did not make for attractiveness. San Juan too, however, something of an expert in him. He was apparently, mentally, the ideal of a large grey eye and mouth of chestnut hair would some day transform her in a beauty.

"How old are you, girl?" he asked.

MORE OPEN SHOP MINES EXPECTED NORTHERN W. VA.

Many Operators Feel They Cannot Pay Baltimore Conference Scale.

POOR DEMAND FOR COAL

MORGANTOWN, April 11—Agreement by some of the operators of the northern West Virginia mining field with representatives of district 17, United Mine Workers on a contract for a three-year period, as carried in the Jacksonville agreement, will probably result in a number of mines in the northern part of the state operating on an open shop basis as many operators feel they cannot pay the scale to which a few operators only agreed at the Baltimore conference, and yet continue to operate their mines in competition with non-union mines in view of the difference in the day rate of from \$2 to \$3 per day.

According to the best information obtainable only four operators at the Baltimore conference became parties to the agreement with the representatives of the miners, other operators withdrawing from the conference when the miners declined to grant any concessions toward adjusting wages in conformity with current market conditions, so there is a prospect of the northern West Virginia mining field being partly union and partly non-union with a chance that the mine workers organization will lose some of its strength.

Inasmuch as the union miners of District 17 have accepted wage reductions in agreement with the Kenney-Johnson Coal Operators Association under a four-year contract, there are many operators in northern West Virginia as well as in the Kanawha field who believe the miners should have agreed to an adjustment at wages in West Virginia. In District 17 there has been a reduction of 10 cents per ton on pick and machine mining and all yardage and dead work as well as room turning rates have been reduced to the 1917 basis. The scale of rates to be paid for day

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Patient Starts to Leave the System Within Twenty-Four Hours.

Every drugstore in this country is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenburys, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinges of rheumatic pain, he will gladly return your money without comment.

Allenburys has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the sufferer and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, of Rochester, N. Y., the discoverer of Allenburys, who for many years suffered the tortments of rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenburys decisively conquers this scourge of all dis-ease, and he has instructed druggists to guarantee it as above in every instance. Union Drug Co. can supply you.—Advertisement.

Make Life Worth Living.

Don't go around feeling tired, lacking in energy and strength, because your kidneys are not working properly. The use of Foley Pills, a diuretic stimulant for the kidneys, will give your kidneys a good flushing, remove injurious waste matter and bring the kidneys back to a normal, active condition. "Your Foley Pills are the only thing I ever got to do me any good," writes Samuel Brenner, Alexandria, Ind. Sold everywhere.—Advertisement.

labor ranges from \$3.41 to \$5.40, machine miners only receiving the maximum rate mentioned.

There is so little demand for coal and prices have reached such low levels that even non-union producers have found it next to impossible to secure contracts, even though the wages they pay are much lower than the union scale, so keen is the competition for business and particularly for railroad fuel business. This and the business of large manufacturing concerns has been the goal of many producers because it is realized that the only mines which can hope to continue operations during the next year are those having large contracts.

My Experience is that
**DR. CALDWELL'S
SYRUP PEPSIN**
Is just what you need

This Will Make Digestion Easy

WHAT the dyspeptic needs is not soda and charcoal and breath perfume but a medicine that will help his bowels to move regularly, for dyspepsia and constipation are allied. If you take Dr. Caldwell's Syrup Pepsin systematically as the directions on the package call for you will soon digest your food properly and pass it out normally, and heartburn, bloating, dizziness, nervousness and bloating will vanish. In time you can dispense with all medicine as Syrup Pepsin will have exorcised the intestinal and stomach muscles so they get for themselves. Mr. Lewis F. Schultz, Reservoir, Ia., Mrs. Victor Knodler of 3625 Bank St., Louisville, Ky., and hosts of others will verify this.

World Acclaims Success

Dr. Caldwell's Syrup Pepsin is the prescription of a well-known physician of that name who practiced successfully for 47 years. It has been on the market thirty years and is today the largest selling liquid medicine in the world. Thousands of families have it in their medicine chest ready to give when symptoms show signs of dyspepsia, constipation, torpid liver, sour stomach, biliousness.

coated tongue, offensive breath, headaches and such ailments that indicate deranged stomach and bowels. Many serious diseases are prevented by this timely aid.

Formula Plainly Stated

Have no hesitancy giving Dr. Caldwell's Syrup Pepsin to anyone young or old. It is a mild, gentle, invigorating food from narcotics. It will not cramp or gripe. The formula is on the package, a compound of Egyptian scum with pepsin and simple aromatics. A bottle can be had at any drug store and averages less than a cent a dose. Economical for families and fully guaranteed. You will find it a great improvement in both diet and action over oster oil, or "cauty" emulsion made from cod-liver that causes skin diseases, colic that hinders the teeth, kills in water or powder that concentrate the blood and dry the skin.

STYLAGRAM

A new treatment is to have the scarf out to form sleeves in evening dresses.

Umbrellas of the short and stubby variety only be used.

Anyone, even a man — will notice that skirts are shorter.

Coats are often lined with printed crepes to match the new frocks.

On the Riviera, gloves for daytime match the costume.

Buttons appear everywhere and every time with great success. "Button, button, who's got the button?" is being played throughout the wardrobe.

Much fine pleating was shown at the Paris openings.

Black and white is as popular as ever, both in New York and Paris. We'll all be magpies yet.

"A scarf for every costume," is the slogan, whether for a tailor, afternoon or evening.

Red geraniums are the new lapel flower.

The Parisienne now matches her complexion and nose. The brunette of sunburnt tint has her stockings to match. Pinky beige is chosen most often, and often the only touches of color are a woman's face and ankles. For evening, pinky mauve replaces all others in favor.

The Directors influence is beginning to show with the summer modes.

A note of blue in many different tones runs through the mode.

Gray is making a stride in Paris.

The Fashion-right Store

The discriminating men and women who are our customers know from experience that right fashions are displayed here first. When a new hat style is launched by Rebour, or a new silhouette by Lanvin, we are informed of it by our fashion advisers in New York. Directly the new venture is approved by leaders of good style there, it is available in this store. This means that those women who prefer leading fashion to following it, will be greatly interested in each new authoritative style that this store launches.
